2023 LAKE SIGN-UP FORM

Lake: Pokegama

County: Pine

Billing Address

Treatment Address

Lake Restoration provides the most comprehensive treatment plan available for lake services. We apply a combination of multiple herbicides and algacides to give you the highest level of control for common and hard to control submerged weeds and algae. For each treatment Lake Restoration could apply a combination of the following products within approved label rates: Mizzen, Dibrox, Flumigard SC, Aquathol K, and/or Copper Sulfate.

Please select the following lake treatment plans for this season.

**Please see the back of form for treatments, terms, service guarantee, DNR processing fee, and Minnesota DNR shoreline treatment rules.*

- 2 Treatment Plan: \$280.00 PER TREATMENT, PLUS \$2.15 PER SHORELINE FOOT TREATED MORE THAN 50 FEET
- Treatments are conducted approximately 4-6 weeks apart

PLEASE SELECT ANY OF THE ADDITIONAL SERVICES THAT YOU WOULD LIKE TO ADD TO YOUR TREATMENT PLAN: (Optional)

- Swimmer's Itch Treatment: +\$25.00 for PER TREATMENT
- To control the hosts of swimmer's itch organisms present at the time of treatment.
- Muck Reduction: +\$59.00 PER TREATMENT, PLUS \$1.00 PER SHORELINE FOOT TREATED MORE THAN 50 FEET
- MuckMaid pellets are applied throughout the treatment area to reduce the level of muck and silt built up on the lakebed.
 - Devours up to 2" of muck per application per treatment
- Emergent Weed Control
- Please check if you would like more information on controlling emergent vegetation (cattails, water lilies, purple loosestrife...etc.). Imox Herbicide is applied within approved label rates for the control of emergent vegetation.*

DNR PERMIT AND PROCESSING: (Not Optional)

- DNR permit and processing fee \$40 (not optional) or \$65 (if received after April 1, 2023)

Please make any changes, additions necessary (Signature is also required on the back.)
ALL notifications will be made by email.

You can now pay by major credit card (Visa/MasterCard/Discover/American Express) or pay online at LakeRestoration.com

PLEASE READ CAREFULLY:

TERMS

Your first invoice will be sent in May and the second invoice in June. If a credit card number is provided your credit card will be charged at the time of invoice.

SERVICE GUARANTEE PROGRAM

Our Service Guarantee ensures we will get adequate control of aquatic plants within the treatment site. If your treatment site does not have 50% or more control of aquatic plants 14 days after the treatment has occurred, please call in to discuss with one of our lake experts. The service Guarantee is limited to a ONE time use and cannot be used every year. To receive the Service Guarantee, you will be required to provide photographs of the entire area that was treated, as well as the weeds present. With all the programs Lake Restoration offers, there is no residual control. Re-growth or replacement by other weeds or organisms may occur. The following weeds are excluded from the Service Guarantee program because they can be resilient to herbicides: Vallisneria, Chara, and Clasping-leaf Pondweed.

DNR PERMIT PROCESSING FEE

This is an annual fee and is non-refundable. Sign-ups received after April 1st will result in a \$65 DNR fee. Please note that the permit approval process can take 6-8 weeks or longer for new permit applications. If a permit is not received before first treatments on the lake occur, there is a possibility you will receive only one treatment.

SHORELINE TREATMENT RULES PER MN DNR

As in the past, the Minnesota DNR has shoreline treatment rules which limit the size of the allowed treatment area. These rules limit the area to half of the property owner's shoreline footage (up to a maximum of 100 feet), or 35 feet, whichever is greater. Here are a few examples of how the MN DNR's shoreline treatment rules work:

- If you own 300 feet of shoreline, then you will be allowed to treat up to 100 feet of shoreline.
- If you own 100 feet of shoreline, then you will be allowed to treat up to 50 feet of shoreline.
- If you own 60 feet of shoreline, then you will be allowed to treat up to 35 feet of shoreline.

SIGNATURE BELOW

By signing this you are agreeing to a **2-treatment program**. Your first treatment will take place in the month of June or July, weed growth & weather permitting. Second treatments will then follow about four to six weeks later. Herbicide/algacide treatments are applied to submerged weeds and algae only. There is no control of floating vegetation that drifts in afterward. The herbicides used at the time of the treatment need 14-18 days to take full effect. If you have questions regarding your results after this time, please contact Lake Restoration to discuss the treatment so adjustments can be made to your 2nd application.

***Emergent vegetation control, such as cattails or water lilies, is not included in these programs.**

PLEASE NOTE

Lake Restoration may share information regarding your service status. This information will not be sold to outside sources. **By signing below**, the customer is giving Lake Restoration permission to treat per the program chosen on the front of this form. You are also allowing a photograph of the treatment area to be taken prior to each treatment. Signing this form signifies that the customer understands there is no stated or implied guarantee of results, and that payment is due upon completion of treatments regardless of treatment results.

APPLICATION FOR A PERMIT TO CONTROL: AQUATIC PLANTS, ALGAE, SWIMMER'S ITCH, AND LEECHES
(Please Print or Type)

Applicant's Name (First, MI, Last)		Day Time Phone Number	Cell Phone Number
Lake Home Address (# and street, RFD, Box #, City, State, Zip Code)		Fire # / 911 #	Lake Residence Phone Number
Permanent Mailing Address (Indicate if it is the same as above)		E-mail Address	
SIZE OF AREA PROPOSED TO BE TREATED: My property extends _____ ft along shore. Proposed treatment area extends _____ ft along shore by _____ ft lakeward, out to a depth of 8 feet and/or a channel _____ feet long and _____ feet in width extending to open water.			

By signing this form, I hereby make application for a permit to destroy or control aquatic vegetation or aquatic nuisance as described above. I understand that the control of aquatic nuisances, including destruction of aquatic plants and algae, is subject to rules of the Commissioner of Natural Resources. I understand that an Aquatic Plant Management Specialist may wish to inspect the proposed treatment area before, during, and/or after work is completed and that by making this application, I give permission to the specialist to enter my property to make such inspection at reasonable times. I understand that an annual report may be required on results achieved.

Completion of this form and processing of the accompanying application fee does not constitute obtaining a permit.
